We gave these pizzas the thumbs up for having the thinnest crusts. Most testers rated them second-best for the fresh and generous toppings.

#### Margherita, \$22

The tomato paste was more sweet than tangy and went well with the overflowing mozzarella. The basil leaves, generously sprinkled over, were very aromatic.

#### Franca, \$22

This pizza was a simple combination of porcini mushrooms and pancetta bacon. The mushrooms were the best part of the pizza - every piece was large and juicy. The bacon added a strong savoury flavour, but was a little too limp for our liking.
